Synopsis

Met IL SOL DELL'AVVENIRE keert regisseur, schrijver en acteur Nanni Moretti (CARO DIARIO, MIA MADRE) terug naar zijn grote liefdes: Rome en cinema. Moretti speelt zelf een filmregisseur die worstelt met zijn relaties en de productie van zijn nieuwste film. IL SOL DELL'AVVENIRE springt heen en weer tussen heden en verleden, en fantasie en realiteit. Dit Italiaanse, bitterzoete drama is schitterend vormgegeven en één van Moretti's meest persoonlijke films tot nu toe.

In Rome, in de legendarische Cinecittà studio's, zijn de opnames van Giovanni's (Nanni Moretti) nieuwste film begonnen. Terwijl hij zijn acteurs tevreden moet houden én circusolifanten moet regisseren, heeft Giovanni ook moeite om zijn huwelijk met producent Paola (Margherita Buy) te redden. Politiek, liefde en een kleurrijk circus strijden om zijn aandacht, zowel op de set als daarbuiten.

Moretti werkt opnieuw samen met actrice Margherita Buy (MIA MADRE). Acteur Mathieu Amalric (THE FRENCH DISPATCH) is hilarisch als enthousiaste, maar louche Franse coproducent. IL SOL DELL'AVVENIRE werd geselecteerd voor de competitie van het Filmfestival van Cannes. 'A multi-layered love letter to filmmaking in the age of streaming giants' (Variety).

Director: Nanni Moretti

Director's Intention Note

"A film about cinema.

The story of a filmmaker whose life has always been punctuated by cinema and whose films have always accompanied his own life. Giovanni is making a film set in 1956, at the time of the Soviet invasion of Hungary. He firmly believes in this project: he is convinced that it is necessary to tell the story of the Italian Communist Party at that time and how it missed the opportunity to break away from the Soviet Union, to finally take an independent path. But today, no one remembers these events, the world has changed and so has the way films are made. While Giovanni is convinced that he is making a political film, his actress thinks the opposite: according to her, Giovanni is making a love film and doesn't realize it (and maybe she is right). Giovanni's wife Paola secretly goes to a psychoanalyst to find the courage to leave him. Moreover, for the first time, she produces a film that is not Giovanni's: an action film by a young up-and-coming director.

Although the world around him is increasingly difficult to decipher and accept, Giovanni does not want to give in to a disappointing reality. And above all, he does not want to give up the dream of being able to change it. And if life and history do not allow him to do so, then cinema, with its contagious force and energy, transforms reality and makes dreams possible. So, while he is busy on set, he is preparing and imagining two other films: the love story of a couple over several decades and *THE SWIMMER*, based on the short story by John Cheever. As if the empty gaps in life should always be filled by cinema.

I wanted the film to follow the flow of Giovanni's thoughts and emotions. For this, while telling a story (or rather several stories), I needed a wide and free script, capable of containing different layers, tones and styles. The film goes through different crisis and then overcomes them thanks to cinema, which has the magic power to make us rediscover lightness and the desire to be happy. In spite of everything."
